Supermoto

Nordic championship race, is there possibility to arrange

Danmark SM and RR is joint About 60 riders in Danmark, About 20 in Estonia, joint races also tried in Sweden but later have been separated

Sweden future is dark, too few tracks, difficult to get competitors

Estonia, also riders have problem to see where to go after national championship, world and European championships have not developed as they could have.

Island few riders, joint places with RR riders, three days ferry from Danmark to Island 1500 € cost

No supermotogroup in Finland today, 4 meetings, number of riders going down today.

Finland is trying to arrange 7th of July 2017 special supermoto event in a stadium format, following the Swedish system, have been done also in trial previously.

Estonia would be ready to arrange Nordic championship event, no entry fees for participants and trying to fix ferry fees as low as possible. Mario Ostnik EMF starts to work out to arrange the meeting in Estonia 2017 last weekend of May is targetted date.

Nordic Championship rules must follow FIM rules. Needs to be checked by the national federations so that there is no conflicts. Classes might be a problem possibly elite class like A-class and open class for not so serious riders, hobbyriders. First day solo and second day supermoto of Nordic Nations.

Motocross

Svemo proposal for Nordic Championship race.

Meetings; the proposal was discussed, there was not seen possibility to immediate change of meetings. Direct co-operation between commissions is encouraged to improve day to day co-operation.

Competition for children; Svemo proposal was discussed, Norway is following the same guidelines, at the moment Denmark, Estonia and Finland not. In Sweden the parents of children need to take education of how to be a good sporting parent same time as the child is educated. Issue is now taken into consideration of each federation to decide if this is followed.

Ages; proposal comes back to federations, we should strive to make connection between national callifications.

Nordic motocross championship, participants agreed upon an event to be organised in Sweden. The event should be adjusted so that it is not parallel to world or european championship. Nations cup to be included in this event is proposed. Svemo was asked to make a proposal for the result counting for the nations.

Safety

Big issue in Finland this year, lot of progress in the area. Safety improvements are often cheap to do. Helmet use for flagmarshalls was discussed, also yellowlamps as addition or instead of flags of flagmarshalls was discussed.
