Licences and Insurance - Information

Dear Madam,
Dear Sir,

Please find below a number of clarifications and some updated information regarding insurance and FIM licences for the attention of all the FMNs involved in the FIM Insurance programme.

1 - National-resident rider participating in an FIM event in his “home” country

As a general rule, the proposed insurance is subsidiary and complementary to the rider’s own domestic insurance. However, the insurer has agreed to include the following services for national-resident riders participating in an FIM event in their “home” country with a one-event or annual licence issued with insurance under the FIM programme:

- Medical costs up to CHF 400'000.- By way of a reminder, the rider must be covered by a social insurance programme specific to his country of residence that provides cover consequences of illness and accidents. In the absence of such coverage, the insurance cover for medical costs is limited to CHF 125'000.-.
- No international repatriation cover but cover for medical transport according to emergency rescue rules.
- A capital sum of CHF 50'000.- in case of death or permanent disability of the injured rider.

Emergency care: The FIM Insurance (TSM) is intended to cover emergency care; from the moment TSM repatriates someone to his home, there is no longer an emergency situation so the TSM coverage ceases.

Example: An Australian rider goes to an FIM event in Spain and has an accident. His medical expenses in Spain (hospital, medical expenses ...) will be taken care of by TSM provided all the conditions are met but as soon as he is repatriated to Australia, he is no longer supported by TSM but the local Australian social security system.

2 – FIM Insurance card

Please find attached a card in jpg. and png. formats that can easily be forwarded via sms or any mobile messenger app to all the riders concerned so they can save the insurance contact details on any smartphone.

11 ROUTE DE SUISSE
